العرض المالي: صيانة وإعادة تأهيل البنية التحتية ل وحدات مياه الصرف الصحي في المراكز الجماعية في الحسكة في شمال شرق سوريا

#	Description of the Items	Unit	Qty	Unit Cost (USD)	Total Cost (USD)
Maintaining Activities Tents					
1	Repair covers of manholes by supply and install new covers reinforced concrete cover thickness 10 cm by using concrete 300 kg / m3 Dimensions in range area from (0.2 m2 to (0.5) m2 with rebar 7ø8 mm/m in both directions and handles from rebar12 mm, cleaning the site and transport all results of rubble to approved site by local authorities ,all works should be done according to instructions of the site engineer .	No	23		
2	Repair covers of manholes by supply and install new covers reinforced concrete, cover thickness 10 cm by concrete 300 kg / m3 Dimensions in range area from (0.51 m2 to (1.1) m2 with rebar 7ø8 mm/m in both directions and handles from rebar12 mm,cleaning the site and transport all results of rubble to approved site by local authorities , all works should be done according to instructions of the site engineer .	No	113		
3	Supply materials, tools and hiring technical staff to replacement, maintain and extend PVC pipe 2" best quality (the length of each one not more than 50 cm) , the price includes all necessary accessories (fitting, elbow,excavation, backfilling...as per needs.etc.) to be connected directly with PVC pipe 4" as per need, the price includes also fixing and re-constructing the wall after installation or fixing the pipe 2" with equivalent materials as per need, and all needs to complete the work, all the work should be done according to the site engineer instructions.	No	37		
4	Supply materials and providing & install new PVC curtain around the drainage hole with (two sides, L type dim. (1.1X1.1) m), and the section of the PVC not less than (4.5X4.5) cm, to be fixed properly and prevent water seeping, with all needs to complete the work, and all the work should be done according to the site engineer instructions.	NO	64		
5	Supply materials and tools and hiring technical staff to maintain the old PVC curtain (two sides, L type dim. (1.1X1.1) m) around the drainage hole , the price including re-installing, cleaning the site and old PVC, and filling the spaces by best quality materials to prevent water seeping, with all needs to complete the work, and all the work should be done according to the site engineer instructions.	NO	73		
6	Supply materials, tools and hiring technical staff with suitable tools to installing, fixing and extending (PVC pipe 4" best quality in markets with all necessary accessories, fitting, elbow, division ,etc.) instead of damaged and missed PVC pipe 4" ,the price include excavation works in any type of (soil-concrete cement block walls ,etc), and backfilling the area with necessary materials soil, sand, restore the old surface for the necessary places as per site engineer instructions and all the work should be done according to the site engineers instructions	ML	115		
7	Supply materials to replacement the old PVC pipe 8" by new pipe 8" (high quality thickness not less 5 mm)with all necessary accessories, fitting, elbow, ,etc. and casting the joints with cement mortar 1:3, the price include :excavation in any type of soil and concrete floors and the asphalt streets to connect between latrines and manholes and main sewage network pipe in the street as per need... , with all needs to complete the work, backfilling with necessary materials soil,warning bar,fine sand under and around the pipe 8" thick of sand not less 10 cm, restore the old surface for the necessary places,the last layer in the street will be from crushed stone thick 15 cm with good compacting and watering as per site engineer instructions, cleaning and transport all results of rubble to approved site by local authorities all the work should be done according to the site engineers instructions	ML	121		
8	Supply materials, tools and hiring technical staff to replace the old porcelain base of latrines by new one (eastern model) (best quality in market) the price including all excavation and backfilling,elbow s-Trap and all needs from pipe 4" (the length of pipe will be from latrine to manhole as per need) and re-store old surface by (ceramic and/or concrete 250 kg/m3) cleaning the site from all rubble and transfer it to approved location by local authorities, and all the work should be done according to the site engineer instructions	NO	32		
9	maintain the old Manholes and sewage network : by Supply materials, tools and hiring technical staff to do excavation in any type of floor to implement new manhole inside collective centers (the dimensions (length and width are variable) and the depth not more 1.6 m) the price including all backfilling cleaning the site from all rubble and transfer it to approved location by local authorities, and all the work should be done according to the site engineers instructions	MP³	53.5		
10	Supply materials, tools and hiring technical staff to casting ordinary concrete by using concrete 250kg/m3 for floor and walls of Manholes the thick of concrete no less 15 cm, the price including all backfilling, cleaning the site from all rubble and transfer it to approved location by local authorities, and all the work should be done according to the site engineer's instructions	MP³	26		
11	providing and implementing and installing reinforced concrete (rectangular pieces), thickness not less than 10 cm concret 300 kg / m3 with rebar 6ø12 mm/m in both directions and handles from rebar12 mm to covering the new manholes, price including watering- cleaning and transfer the rubble result to approved location by local authorities, all works should be done according to instructions of the site engineer.	MP²	39		
1. Sub-Total (USD)					
General maintenance for doors -windows, and WASH Facilities for Hassakah Collective centers					
1	replacements damaged doors by providing and installing new iron doors for showers and latrines with dim range as following for height (190-175) cm, and width (90-75) cm, the door consist of a frame from iron angles (3*3) cm ,thick no less than 2.8 mm) and iron sheet thick 2mm and support the door by two horizontal profiles (3*3)cm and thick 1.8 mm. the price include all accessories (latch, handle , hinges ,etc) and anti-rust paint and oil paint. All works should be done according to instructions of the site engineer .	No.	42		
2	Replacement broken or missed glasses of windows by supply and install (clear or stained) glass white with thickness not less 4 mm with all needs all works should be done according to instructions of the site engineer .	M²	194.7		
3	Repair Aluminum (doors-windows) by supply and install new (locks ,handle ,hinges ,latches ,fiber sheet): as per need (acceptable quality),the price including, maintain the frame as per need, all works should be done according to instructions of the site engineer .	No.	69		
4	Repair main iron doors and iron windows by (welding ,fixing (or/and) Providing and installing iron((small missed frames and parts)) for (windows , doors) instead of damaged or missing parts, at works should be done according to instructions of the site engineer .	M²	46.9		
5	Repair of Aluminum windows by: provide, maintenance and installing new Aluminum frames for windows, instead of damaged or missing parts and installing new clear or stained glass white with thickness not less 4 mm with locks of windows (good quality in the market)- as per need- the price including all needs, all works should be done according to instructions of the site engineer .	M²	146		
6	Repair of Aluminum windows by: maintenance of damaged part from frame of windows price including providing and installing all needed from accessories like (Ducts - hinges - Locks - Wheels ,etc) as per needs instead of damaged or missing parts and (installing new (clear or stained) glass white with thickness not less 4 mm as per need - with locks of windows - as per need)- the price including all needs, all works should be done according to instructions of the site engineer .	M²	164		
7	Repair of PVC windows by: provide, maintenance and installing new PVC frames for windows, instead of damaged or missing parts and installing new clear or stained glass white with thickness not less 4 mm with, locks of windows (good quality in the market)- as per need- the price including all needs, all works should be done according to instructions of the site engineer .	M²	66		
8	Repair wooden doors by Putty and paint the doors, repair the frames, fill the holes between the frames and the walls with suitable materials, price including provide and maintain the missed wooden parts to install the locks, all works should be done according to instructions of the site engineer .	No	50		
9	Repair wooden doors by supply and install new locks and (hinges, latches...as per need) (best quality in the market), price including provide and maintain the missed wooden parts to install the locks ,all works should be done according to instructions of the site engineer .	No	567		
10	Repair wooden doors by supply and install new handle and (hinges, latches...as per need) (best quality in the market), price including provide and maintain the missed wooden parts to install the locks and handle,all works should be done according to instructions of the site engineer .	No	241		
11	Replacing wooden doors by providing and installing new wooden doors with range of dim.for height (190-200) cm, and width (90-100) cm with all accessories (locks, handle, hinges , etc)with painted two layers for doors and frames (good quality in the market). The price include replacement damaged parts of frames (and/or) fixing the damaged frame of the doors (as per needs) , all works should be done according to instructions of the site engineer .	No	54		
2. Sub-Total (USD)					
Total Amount (USD)
